education

2010–2015 **Computer Engineering and Informatics**
Current GPA : 7.82
2010 **Graduated from Othisi High School**
19.4/20

University of Patras, Greece

experience

- 2014 **ECESCON 8 Conference** Patras
IT Team Main Coordinator
–ECESCON 8 (Electrical and Computer Engineering Student Conference) is a nationally acknowledged annual conference hosting more than 1200 students, academics, research groups from all over Greece as well as several international scientists. By participating in the organizing committee, I am responsible for the IT team which consists of 20 people. The goal for our team is to provide a range of IT services, including the design of the conference's website and cross-platform application, livestreaming and the presentation of cutting-edge technologies and projects that we will develop to amuse the attendants during this 3-day conference.
- 2013–Now **Comvos** Non-Profit Organization
Member
–Comvos (Cooperation and Motivation of Students) is a joint effort of the team leaders of student greek organizations, in order to help each other, persuade university students to participate in these organizations and eventually bring change to the present state of academic reality.
- 2013–2014 **AIESEC** Non-Profit Organization
Team Member of Sales Team and Incoming Exchanges
–The main responsibilities of this team are to develop and implement sales strategies, negotiate and sign contracts with NGOs and businesses to bring in international interns, manage the reception, accommodation and integration of incoming interns and maintain relationships with professional partners.
- 2012–Now **Microsoft** Microsoft Hellas
Microsoft Student Partner Community Manager
–Main responsibilities of being a MSP are to organise events/seminars/trainings on Campus, promote the company's new tools and technologies and be the contact person between professors, students and the company. As a community manager I am responsible for the progress and guidance of the local MSPs while they fulfill the tasks they are assigned on a daily basis.

- 2012–Now **StudentGuru Patras** *Non-Profit Organization*
 Community Leader since November, 2013
–StudentGuru.gr is one of the biggest student forums in Greece with more than 14.000 members, focusing on technology. Its offline events are organised by local communities. StudentGuru Patras is the first academic community in University of Patras majoring in Microsoft .NET related technologies. It was founded in October 2009 and its main vision is to bring students closer to technologies and informatics. Every week, a 2-hour event concerning new technologies and career-building issues is held, with approximately 150 attendees per event and once a year we provide a series of trainings in order to prepare the participants for the upcoming programming competitions we organize.
- 2012–Now **IEEE** *Engineering Association*
 Student Member of the Computer Branch
–As a member of the local Computer Branch I attended seminars held by this organization and helped with the preparations and promotion.
- 2011 **Military CyberDefence Exercise "Panoptes 2011"** *CEID, Ministry of Defense*
 Defense, Blue Team
–We participated in the National Cyber Defense exercise which took place nationwide (army's forces, public & private sector organisations, academic communities). In order to participate succesfully we were fully trained in the following subjects: Incident Handling, DDoS, Network Security, Web Security, Web DoS, Malware Analysis, Windows/Linux System Administration, Data Leakage and Cryptography.
- 2011 **FOSSCOMM** *CEID, UPatras*
 Organizing Team
–As a member of the organizing team at the "Free and Open Source Software Communities" conference I was responsible for setting up a live stream broadcast as well as the network in order to provide our hosts with internet connection and at the same time ensure that the department's network remains safe from malicious attacks.
- 2010–2014 **Network Operations Center** *CEID, UPatras*
 Network Administrator
–The Laboratory for Computing/Computer Center of the Computer Engineering and Informatics Department is the main laboratory for the design, support and development of Applied Information and Communication Technologies (ICT) for the department. It is voluntarily supported by a group of undergraduate and postgraduate students who focus on Unix and Windows System Administration, the Administration and Development of the department's Website and Forum, the Maintenance of the 100+ Workstations and Servers and the Administration of the department's Network. My group is responsible for network monitoring, the configuration and maintenance of network hardware and software and providing support to the users.

communication skills

Oral	Deploying Honeypots and Honeynets	CEID
Presentations	Decision Support Systems in E-Commerce	CEID
	Building a Terrain with Unity	CEID
	Building a Dynamic Website with ASP.NET	CEID
	Arduino for beginners and how to make a Voice Recognition Demo using Arduino and C#	CEID
	How to develop Windows Phone Applications using Microsoft Blend	CEID
	Future innovation = StudentGuru.getFuture(); <i>Hosted a succesful Investment Manager to talk about Startups and Business Accelerators and a Startup focusing on Game Development to share their experiences, as long as the Winner of Imagine Cup held in New York, to give details and share his experiences about this international programming competition.</i>	CEID
	Writing a Curriculum Vitae	CEID
	Codebender Workshop <i>Hosted the creators of Codebender, an online development platform for Arduino, to talk about their Startup and have an Arduino Workshop</i>	CEID
	Imagine Camp <i>Hosted two Microsoft Evangelists to present the worldwide contest, Imagine Cup and the new operation system Windows 8.1 .</i>	CEID
Debates	MUN (international), AMUN (Athens), European Youth Parliament, Greek Youth Parliament	

scholarships and awards

Dec 2014	1st place at Startup Weekend Patras <i>For presenting our newborn Startup, Bediculus</i>	
2013	University of International Business and Economics, Beijing, China <i>Scholarship offered by Hanban, for showing excellence in the HSK examination, in order to attend basic economics and chinese courses.</i>	
2013	3for1 Windows Phone Programming Competition For developing three Windows Phone Applications	Microsoft Hellas
2013	3for1 Windows 8 Programming Competition For developing three Windows 8 Applications	Microsoft Hellas

interests

*attending psychology and leadership courses at coursera.org,
reading ancient greek literature.*
